

CB MOBILE ANTENNA CENTER COIL MINI CANARINHO WITH BLACK EXT.

AP30031 - AP30033

TECHNICAL DATA

It is an antenna with a high-efficiency center coil, designed to operate in the citizens band (27 MHz - 11 Meters). Made of stainless steel, chrome-plated brass, nylon coil core and high-performance enameled copper wire.

The solid base (internal) has a channel. Now all pipe crimping points are made exactly under this groove, Mini Canarinho Wave with extender locking the outer pipe to the antenna's solid base and preventing it from shifting.

IMPORTANT

For best results, always use an SWR meter (WATTMETER). The reflected signal must not exceed 1,5:1 or 4% of the forward power.

This antenna is available in the following versions:

AP30031 - CB mobile antenna 1/4 under this groove, Mini Canarinho Wave with extender black base.

AP30033 - Black Base Extender 6000 for Mini Canarinho CB Coil.

SPECIFICATIONS

FREQUENCY	26 - 28 MHz
MAXIMUM POWER	100 W
IMPEDANCE	50 Ω
VSWR	$\leq 1,5:1$
GAIN	2,15 dBi
HEIGHT	1330 mm
WEIGHT	506 g

See alongside the VSWR chart of a AP30031 antenna tuned to 27,015 MHz.

A 2mm Allen key is required to adjust the antenna (not included).
