

BLACK MAGNETIC MOUNT FOR MOBILE ANTENNA WITHOUT CONNECTOR

AP4075

The **AP4075** magnetic mount was designed for mobile stations, with the convenience of installing it anywhere on the vehicle body and removing it instantly after use. With its strong magnet, it holds antennas the size of the AP0190 and AP0189 in winds of up to 190 km/h, and can withstand higher speeds with smaller models of the antennas mentioned above! On the underside, it has high-deformation rubber resistant to ozone, weather and chemicals, preventing damage to the bodywork.

SPECIFICATIONS

MATERIAL	Injection-molded
CABLE CONNECTOR	ABS No
BASE CONNECTOR	termination
CABLE	Female UHF Coaxial 50 Ohms 5,5m
